

Fun with numbers

Level I In the following equations, we have paired Eastern Arabic and Devanagari numerals with numbers as you know them (or Arabic numerals). Solve the equations. You can refer to the revision sheet to identify the numerals.

a. ٦ + 2 = _____

b. ० + 3 = _____

c. ॷ - 4 = _____

d. ॴ x 5 = _____

e. ३ + 3 = _____

f. ٢ + 2 = _____

g. ४ x 2 = _____

h. ९ - 5 = _____

Level II In this slightly complicated exercise, you have to solve simple mathematical equations where both the components are either in Eastern Arabic or Devanagari numerals.

a. ٣ + ٨ = _____

b. ० x ١٠ = _____

c. ٢ + ٦ = _____

d. ॴ - ١ = _____

e. ٩ - ٣ = _____

f. ٢ x ٨ = _____

g. ٦ x ٩ = _____

h. ٨ + ॴ = _____

Fun with numbers

Level III This number jumble requires you to identify the two numbers in each equation. While one component of the equation is represented in Eastern Arabic numeral, the other is listed in Devanagari script. Get ready for some bilingual math with help from revision sheets!

a. ٦ + ३ =

b. ٩ + ९ =

c. ٧ - ٨ =

d. ९ x ٨ =

e. ३ + २ =

f. ٢ + ١٠ =

g. ٢ + ٦ =

h. ٩ - ٥ =

i. २ x ٩ =

j. ९ + ٨ =
